BUSN Marce Kelly 2008 Student tested and faculty approved, BUSN breaks new ground in the Introduction to Business market, delivering a riveting design that captivates students and powerful resources that save instructors valuable time. Written by longtime Intro to Business instructors who know firsthand the needs of today's instructors and students, this unique first edition provides a more student-focused--less linear--learning model that truly engages students. Its traditional material is presented in a vibrant, very nontraditional format. More "casual magazine" than "formal textbook," this lively design will intrigue and inspire students by incorporating less dense textual material and a more visual presentation of key concepts. The graphics, page layout, and design speak specifically to today's students, enticing them to keep turning the pages. Streamlined and well balanced, the text covers all core Introduction to Business topics in a succinct 18 chapters--including a unique chapter on Business Communications. In addition, the text is unrivaled in its cohesive integration of text and supplements. Robust resources--including an extremely interactive website--help students learn to study, communicate verbally and in writing, and master chapter concepts. Helping you keep students motivated in the classroom--even if they're not business majors--BUSN provides the most efficient instructor tools available, including a syllabus builder and database of instructional material. With BUSN, your students will be prepared and engaged.

Financial and Accounting Principles in Islamic Finance Samir Alamad 2019-05-10 This book provides an original account detailing the origins and components of a faith-based accounting system that was founded around 629 CE. By examining the historical development that the accounting systems underwent within the context of faith-based rules and values, the book explains what is meant by the term "faith-based accounting", together with a discussion of its characteristics in relation to various product structures and the underlying Islamic finance principles. It provides important theoretical and practical contributions by explaining accounting as a value-based science rather than a value-free object or abstract. This book explores the way in which religious rules act as a directive for accounting and auditing practices in IFIs. Through which the concept of money and digital currency within the theory of money and how it is enacted in a faith-based context, amid differences of opinions among its actors, is examined. This is an important foundation to explain Islamic accounting and includes how this outcome would shape the faith-based view regarding the new phenomenon of digital currency (DC). Also featured is the concept of paper money within the theory of money and how it is enacted in a faith-based legal framework by identifying two core concepts of today's Fiat money as being a single genus or multi-genera money. This book is not merely an academic work, nor is it a pure practitioner guide; rather, it is a robust work that combines both. It marries rigorous academic research and theories with practical industry experiences. The book provides a clear and concise guide to

accounting in Islamic economics and finance and how Islamic financial institutions could meet the applicable faith-based rules in their accounting practices. Accounting for Financial Instruments Emanuel Camilleri 2017-05-12 Accounting for Financial Instruments is about the accounting and regulatory framework associated with the acquisition and disposal of financial instruments; how to determine their value; how to manage the risk connected with them; and ultimately compile a business valuation report. Specifically, the book covers the following topics, among others: Accounting for investments; Bills of Exchange; Management of Financial Risks; Financial Analysis (including the Financial Analysis Report); Valuation of a business (including the Business Valuation Report) and Money laundering. Accounting for Financial Instruments fills a gap in the current literature for a comprehensive text that brings together relevant accounting concepts and valid regulatory frameworks, and related procedures regarding the management of financial instruments (investments), which are applicable in the modern business world. The objective of the book is to provide a fundamental knowledge base for those who are interested in managing financial instruments (investments) or studying banking and finance or those who wish to make financial services, particularly banking and finance, their chosen career. Accounting for Financial Instruments is highly applicable to both professional accountants and auditors and students alike. Book jacket. Sport Facility Operations Management Eric C. Schwarz 2010 Sports facilities management is in the national news with reports from the BBC that three 2012 Olympic venues in London are being evaluated by accountants to see whether they will deliver value for money. The current estimate of government spending on the games is £9.3 billion. There is also an ongoing debate about the fate of the 80,000 seat stadium that is being constructed for the games at a cost of £500 million. This is the first book to take a truly global look at facilities operations management in the sport industry. The lead author, Eric Schwarz, and his co-author Stacey Hall have joined forces with Simon Shibli an academic from Sheffield Hallam (a leading University for Sport Management in the UK) Sport facilities of all shapes and sizes are an ingrained part of global sport management culture. As such, it is inevitable that students who enter into the field of sport management will interact with the management and operations of a sport facility at some point during their career. This book is published with the sport management lecturer and student in mind, complete with a companion site. This textbook provides the theoretical foundation for sport facility operations management, and is supplemented both in the text and in the companion site containing: schematics, planning documents, sample forms, and sample ownership/management structures. In addition, each author will infuse research and experiences from sport facilities around the world (North America; Europe; Middle East/Asia; Australia and New Zealand) to ensure that a global perspective is at the core of this book. * Students gain a global understanding of the topic that they will be able to apply when working in the industry, anywhere in the world * Brings theory to life with practical insights and real life applications, drawing on the extensive industry and teaching experience of the three authors * The book contains short cases and examples, as well as online case studies

Teaching for Quality Learning at University 5e John Biggs 2022-11-10 "Biggs and Tang, now with Kennedy, have ensured this new edition remains an international leader for university teaching for the next decade." Denise Chalmers AM, Emeritus Professor, University of Western Australia, Australia "This book, a fifth edition, can truly be called a "classic" on the topic of teaching, learning and curriculum design in higher education." Michael Prosser, Honorary

Professorial Fellow, Centre for the Study of Higher Education, University of Melbourne, Australia "You should be inspired to increase the quality of your teaching, your learning, and your learning about teaching." John R. Kirby, Professor Emeritus of Educational Psychology, Queen's University, Canada The concept of constructive alignment has supported generations of students and teachers within higher education. It is a 'backward design' method of teaching where the student outcomes are identified first and the teacher then designs teaching activities to enable students to achieve those outcomes, assessing how well they have been achieved. Each chapter outlines how to design the learning outcomes, teaching and assessments for success in learning. This updated edition of Teaching for Quality Learning at University: • Provides a comprehensive, research-based theory of teaching for teacher reflection • Outlines how educational technology can be used in constructively aligned teaching • Helps staff developers to provide support for staff and departments in line with institutional policies • Offers a framework for quality assurance and quality enhancement across a whole institution Teaching for Quality Learning at University continues to be used as a framework for designing higher education teaching systems globally and is essential reading for those in the field. John Biggs has held Chairs in Education in Canada, Australia, and Hong Kong. He has published extensively on student learning and the implications of his research for teaching. He developed his concept of constructive alignment at the University of Hong Kong, first outlined in Teaching for Quality Learning at University in 1999. Catherine Tang has over 15 years of teaching experience in tertiary education and is the former Head of the Centre for Learning, Teaching and Supervision at the Education University of Hong Kong (the then Hong Kong Institute of Education) and the Educational Development Centre at the Hong Kong Polytechnic University. Gregor Kennedy is the Deputy Vice-Chancellor (Academic) at the University of Melbourne, Australia and a Professor of Higher Education in the Melbourne Centre for the Study of Higher Education.
