It's Monday night at a small-town rink and it's the first-ever Learn to Curl class for new Canadians. Inspired by the local refugee resettlement program, community-minded Marlene organized this evening to welcome newcomers and "diversify the club". But when she slips on the ice and breaks her hip, the club's ice-maker—who also happens to be Marlene's ex-husband—Stuart MacPhail is forced to step in as head coach. Trouble is, Stuart has plenty of opinions about immigrants. Growing Pains Gwynne Dyer 2018-03-08 We are now living in a world where Brexit and Trump are daily realities. But how did this come about? And what does it mean for the future? Populism and ultra-nationalism brought about the rise of Hitler and Mussolini in the 1930s. Now, as Trump sits in the White House, Britain negotiates its way out of the EU, and countries across Europe see substantial gains in support for the extreme Right, award-winning journalist, author, and historian Gwynne Dyer asks how we got here, and where we go next. Dyer examines the global challenges facing us all today and explains how they have contributed to a world of inequality, poverty, and joblessness — conditions which he argues inevitably lead to the rise of populism. The greatest threat to social and political stability, he argues, lies in the rise of automation, which will continue to eliminate jobs, whether politicians admit that it is happening or not. To avoid a social and political catastrophe, we will have to find ways of putting real money into the pockets of those who have no work. But this is not a book without hope. Our capacity for overcoming the worst has been tested again and again throughout history, and we have always survived. To do so now, Dyer argues, we must embrace radical solutions to the real difficulties facing individuals, or find ourselves back in the 1930s with no way out.

Buyology Martin Lindstrom 2010-02-02 NEW YORK TIMES BESTSELLER • "A fascinating look at how consumers perceive logos, ads, commercials, brands, and products."—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In Buyology, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can "cool" brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? Buyology is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.
