Marine Diesel Engines Nigel Calder 2003 Nigel Calder, a diesel mechanic for more than 25 years, is also a boatbuilder, cabinetmaker, and machinist. He and his wife built their own cruising sailboat, Nada, a project they completed in 1984. Calder is author of numerous articles for Yachting Monthly and many other magazines worldwide, as well as the bestselling Boatowner's Practical and Technical Cruising Manual and Boatowner's Mechanical and Electrical Manual, both published by Adlard Coles Nautical. Here, in this goldmine of a book, is everything the reader needs to keep their diesel engine running cleanly and efficiently. It explains how diesel engines work, defines new terms, and lifts the veil of mystery that surrounds such engines. Clear and logical, this extensively illustrated guide will enable the reader to be their own diesel mechanic. As Nigel Calder says: 'there is no reason for a boatowner not to have a troublefree relationship with a diesel engine. All one needs is to set the engine up correctly in the first place, to pay attention to routine maintenance, to have the knowledge to spot early warning signs of impending trouble, and to have the ability to correct small ones before they become large ones.'

Environmental Engineering Dictionary and Directory Thomas M. Pankratz 2000-09-22

Like most technical disciplines, environmental science and engineering is becoming increasingly specialized. As industry professionals focus on specific environmental subjects they become less familiar with environmental problems and solutions outside their area of expertise. This situation is compounded by the fact that many environmental science related terms are confusing. Prefixes such as bio-, enviro-, hydra-, and hydro- are used so frequently that it is often hard to tell the words apart.

The Environmental Engineering Dictionary and Directory gives you a complete list of brand terms, brand names, and trademarks - right at your fingertips.

Righteous Porkchop Nicolette Hahn Niman 2010-10-19 Asked to head up Robert F. Kennedy Jr.'s environmental organization's "hog campaign," Nicolette Hahn Niman embarked upon a fascinating odyssey through the inner workings of the "factory farm" industry. What she discovered transformed her into an intrepid environmental lawyer determined to lock horns with the big business farming establishment. She even, unexpectedly, found love along the way. A searing account of an industry gone awry and one woman's passionate fight to remedy it, Righteous Porkchop chronicles Niman's investigation and her determination to organize a national reform movement to fight the shocking practices of industrial animal operations. She offers necessary alternatives, showing how livestock farming can be done in a better way—and she details both why and how to choose meat, poultry, dairy, eggs, and fish from traditionally farmed sources.

Legendary Car Engines John Simister 2004 In *Legendary Car Engines*, John Simister expertly dissects twenty of the greatest powerplants. With photos by Automobile Magazine contributor Tim Andrew and illustrations by the late, great Bob Freeman, it looks as good as it reads. - "Speed Reading" Automobile Magazine, October 2004 This book examines the 20 best road-car engines ever: the most tuneful, the most beautiful, the most significant, the most highly-prized. A car's engine is its heart and its soul. It gives a car its voice and its muscle. Some engines do this so well they seem like living things. But which are they? The words reveal who designed them, and the how, when, and why, while Tim Andrews' fabulous photography captures the familiar face and the hidden depths. Discover the engine's design features, and why they matter. Find out which is the world's most prolific engine, which began as a fire-pump, and which has components that are reversible. Discover things you never knew about engine technology. John Simister gets to the heart of these celebrated power plants and describes them as he might describe old friends. Only the master of his subject could handle so complex a subject with so light a touch.
