To Live Ancient Lives Theodore Dwight Bozeman 2014-01-01 To Live Ancient Lives signals a sharp redirection of Puritan studies. It provides the first comprehensive study of Puritan primitivism, defined as the drive to recover and return to church and society the ordinances of biblical times. This work traces a campaign to purify English Christianity of postapostolic accretions from the Henrician Reformation to the Great Migration of 1630 and through the first five decades in New England. Taking their bearings from a special past, Puritans were not concerned with the future in a modern sense. The Great Migration was not intended as an errand to reform the world or inaugurate the millennium, but as a flight to a free world in which long-lost biblical rules and ways could be reinstated. Drawing on hundreds of sermons and tracts, Bozeman demonstrates how the search for the long-lost helps to identify Puritanism as a discrete order within Protestant dissent, and he locates that movement within the larger spectrum of restorationist Christian movements and of Western mythology. The Golden Dawn's 'Nationalist Solution': Explaining the Rise of the Far Right in Greece S. Vasilopoulou 2015-02-25 This book contextualizes the rise of the Golden Dawn within the Eurozone crisis. The authors argue that the movement's success may be explained by the extent to which it was able to respond to the crisis of the nation-state and democracy in Greece with its 'nationalist solution': the twin fascist myths of

social decadence and national rebirth.

The Circle of Knowledge: A Classified, Simplified, Visualized Book of Answers Various 2022-06-02 The Circle of Knowledge is an informative book that was designed in 1917, to be both inspiring and entertaining. The book represents the modern, progressive spirit which fits that time, in its forms of expression and its editorship. The purpose of this work is to answer the why, who, what, when, where, how of the wide majority of curious minds, both young and adult, and encourage them to raise further questions. Special measures were taken in creating this work to isolate essentials from non-essentials; to differentiate human interest subjects of universal significance from those of little concern; to deliver living truths instead of dead vocabulary; and finally, to bring the whole within the knowledge of the intermediate reader, without regard to age, in an acceptable and exciting form. The use of visual outlines and tables; maps, drawings, and diagrams; the illustrated works of great painters, sculptors, and architects all are used to give the reader the valuable and cultural knowledge of past and present.

*Israel Or Palestine? Is the Two-state Solution Already Dead?* Hasan Afif El-Hasan 2010 Written by a Palestinian with intimate knowledge of the political and physical landscape of the region, at its basic level the book advocates for a just peace based on the human rights and international law, a peace which all parties to the century-old conflict need. In this history of Palestine, the author shows that both sides of the conflict as well as the international community share the blame for the failure to bring the issue to a just conclusion. Most of the responsibility, he says, lies at the door of the Palestinian leaders themselves, who seem to suffer from institutionalized incompetence in dealing with the Israelis; and the Israelis are to be blamed for their refusal to transform their colonial enterprise into reconciliation politics by acknowledging the claims of the indigenous Palestinian people. At the same time, there is every sign that this impasse was deliberately created at the outset by the international community, led by Great Britain, in the endless game of "divide and rule." Unlike many optimistic writers who expect US President Barack Obama and his administration to find a just solution to the conflict, the author concludes that the Obama Administration would have to reverse the traditional US policy in the Middle East entirely if it is to solve the Palestinian-Israeli conflict. Delving into the historical background behind all the parties to the issue, the book provides much-needed background for understanding news events today and basic information that even human rights activists and peace organizations may not have fully appreciated. Throughout, the author seeks to transcend his ethnicity and deal fairly with the positions of people holding different worldviews.

*History of Ancient Philosophy III, A* Giovanni Reale Reale's volume supplies a synthesis previously lacking—a synthesis in the historical treatment of the great philosophies of the Hellenistic Age: the Academy, the Peripatos, the Stoa, the Garden of Epicurus, Scepticism, and Eclecticism. Reale's extensive and fully documented treatment of the major schools of the period is unified by his thesis that the ethics developed by these major schools were secular faiths that sprang from intuitions about the meaning of life first emotionally grasped and then systematically and rationally developed. It is for this reason that the teachings of these schools endured almost continuously for about 500 years. It is for the same reason that the founders of the schools were considered gods and were actually, in a certain sense, the saints of

secular faiths and religions. In this book, Reale traces the decline of the philosophical schools of the classical period, the post-Platonic Academy, the post-Aristotelian Peripatos, and the minor Socratic schools. The destruction of the polis and the incapacity of the schools to address the concerns of the new age were the fertile grounds from which the new schools developed. The Garden of Epicurus, the Porch of Zeno, and the sceptical movement initiated by Pyrrho form the core of the volume. The volume contains a select bibliography and an index of names and Greek terms, as well as an index of citations.

The Secret History of the World and How to Get Out Alive Laura Knight-Jadczyk 2005 Previously published as Ancient Science, Secret History contains 150 pages of new material. The Secret History of The World and How To Get Out Alive is the definitive book of the real answers where Truth is more fantastic than fiction. Laura Knight-Jadczyk, wife of internationally known theoretical physicist, Arkadiusz Jadczyk, an expert in hyperdimensional physics, draws on science and mysticism to pierce the veil of reality. With sparkling humour and wisdom, she picks up where Fulcanelli left off, sharing over thirty years of research to reveal, for the first time, The Great Work and the esoteric Science of the Ancients in terms accessible to scholar and layperson alike. Conspiracies have existed since the time of Cain and Abel. Facts of history have been altered to support the illusion. The question today is whether a sufficient number of people will see through the deceptions, thus creating a counterforce for positive change - the gold of humanity - during the upcoming times of Macro-Cosmic Quantum Shift. Laura argues convincingly, based on the revelations of the deepest of esoteric secrets, that the present is a time of potential transition, an extraordinary opportunity for individual and collective renewal: a quantum shift of awareness and perception which could see the birth of true creativity in the fields of science, art and spirituality. The Secret History of the World allows us to redefine our interpretation of the universe, history, and culture and to thereby navigate a path through this darkness. In this way, Laura Knight-Jadczyk shows us how we may extend the possibilities for all our different futures in literal terms. With over 800 pages of fascinating reading, The Secret History of The World and How to Get Out Alive is rapidly being acknowledged as a classic with profound implications for the destiny of the human race. With painstakingly researched facts and figures, the author overturns long-held conventional ideas on religion, philosophy, Grail legends, science, and alchemy, presenting a cohesive narrative pointing to the existence of an ancient techno-spirituality of the Golden Age which included a mastery of space and time: the Holy Grail, the Philosopher's Stone, the True Process of Ascension. Laura provides the evidence for the advanced level of scientific and metaphysical wisdom possessed by the greatest of lost ancient civilizations - a culture so advanced that none of the trappings of civilization as we know it were needed, explaining why there is no 'evidence' of civilization as we know it left to testify to its existence. The author's consummate synthesis reveals the Message in a Bottle reserved for humanity, including the Cosmology and Mysticism of mankind Before the Fall when, as the ancient texts tell us, man walked and talked with the gods. Laura shows us that the upcoming shift is that point in the vast cosmological cycle when mankind - or at least a portion of mankind - has the opportunity to regain his standing as The Child of the King in the Golden Age. If ever there was a book that can answer the questions of those who are seeking Truth in the spiritual wilderness of this world, then surely The Secret History of the World and How to Get Out Alive is it.

China's Solution to Its Ethno-national Issues Shiyuan Hao 2019-10-11 This book focuses on the global issue of ethnic problems and examines the theory and practice of how China addresses its ethnic problems from a macro perspective, following the guidelines formulated by the working conference on ethnic affairs of the Central Committee of Chinese Communist Party in 2014.
