Queering Translation, Translating the Queer Brian James Baer 2017-09-22 This groundbreaking work is the first full book-length publication to critically engage in the emerging field of research on the queer aspects of translation and interpreting studies. The volume presents a variety of theoretical and disciplinary perspectives through fifteen contributions from both established and up-and-coming scholars in the field to demonstrate the interconnectedness between translation and queer aspects of sex, gender, and identity. The book begins with the editors' introduction to the state of the field, providing an overview of both current and developing lines of research, and builds on this foundation to look at this research more closely, grouped around three different sections: Queer Theorizing of Translation; Case Studies of Queer Translations and Translators; and Queer Activism and Translation. This interdisciplinary approach seeks to not only shed light on this promising field of research but also to promote cross fertilization between these disciplines towards further exploring the intersections between queer studies and translation studies, making this volume key reading for students and scholars interested in translation studies, queer studies, politics, and activism, and gender and sexuality studies.

Progress in Education, Volume 15 Roberta V. Nata 2007 This series presents substantial results from around the globe in selected areas of educational research. The field of education is consistently on the top of priority lists of every country in the world, yet few educators are aware of the progress elsewhere. Many techniques, programs and methods are directly applicable across borders. This series attempts to shed light on successes wherever they may occur in the hope that many wheels need not be reinvented again and again.

B. Arch. NATA Ashok Goel 2020-10 The content of the guide is student-centered and activity based with emphasis on developing the problem-solving skills of the reader. It will encourage the candidate to think creatively and prepare for NATA exam independently without any coaching or the teacher. The methodology facilitates the student to ensure full understanding of the subject in totality. All the concepts are presented in a very simple and easy to understand form. Moreover, the concepts are explained with solved examples. An abundant use of visual tools such as illustrations, sketches and diagrams helps in better retention and makes learning fun. Our approach will help you to create passion for the subject rather than fear of the technical jargons. Our motto is to encourage you to enquire, explore and discover rather than rote learning. We have given exercises for immediate practice almost after every topic. We have designed the 'exercises' to include all types of questions especially the multiple choice questions (MCQs). Maths questions and exercises have been prepared to develop skills in rapid calculations. Our guide is prepared as per the latest test pattern and syllabus of NATA exam for B. Arch. entrance.
