The Red and The Black Stendhal 2020-07-15 *Le Rouge et le Noir* (French meaning The Red and the Black) is a historical psychological novel in two volumes by Stendhal, published in 1830. It chronicles the attempts of a provincial young man to rise socially beyond his modest upbringing through a combination of talent, hard work, deception, and hypocrisy. He ultimately allows his passions to betray him. The novel's full title, *Le Rouge et le Noir: Chronique du XIXe siècle* (The Red and the Black: A Chronicle of the 19th Century), indicates its twofold literary purpose as both a psychological portrait of the romantic protagonist, Julien Sorel, and an analytic, sociological satire of the French social order under the Bourbon Restoration (1814-30). In English, *Le Rouge et le Noir* is variously translated as *Red and Black*, *Scarlet and Black*, and *The Red and the Black*, without the subtitle.

Stendhal Victor Brombert 2017-10-09 Victor Brombert is a lion in the study of French literature, and in this classic of literary criticism, he turns his clear and perspicacious gaze on the works of one of its greatest authors—Stendhal. Best remembered for his novels *The Red and the Black* and *The Charterhouse of Parma*, Stendhal is a writer of extraordinary insight into psychology and the many shades of individual and political liberty. Brombert has spent a lifetime reading and teaching Stendhal and here, by focusing on the seemingly contradictory themes of inner freedom and outer constraint within Stendhal's writings, he offers a revealing analysis of both his work and his life. For Brombert, Stendhal's work is deeply personal; elsewhere, he has written about the myriad connections between Stendhal's ironic inquiries into identity and his own boyhood in France on the brink of World War II. Proceeding via careful and nuanced readings of passages from Stendhal's fiction and autobiography, Brombert pays particular attention to style, tone, and meaning. Paradoxically, Stendhal's heroes often feel most free when in prison, and in a statement of stunning relevance for our contemporary world, Brombert contends that Stendhal is far clearer than any writer before him on the "crisis and contradictions of modern humanism that . . . render political freedom illusory." Featuring a new introduction in which Brombert explores his earliest encounters with Stendhal—the beginnings of his "affair" during a year spent as a Fulbright scholar in Rome—Stendhal remains a spirited, elegant, and resonant account.

On Love Stendhal 2019-02-14 Mortimer came back trembling from a long journey; he loved Jenny; she had not answered her letters. When he arrived in London, he rides a horse and picks her up from his country house. He arrives, she was walking in the park; he runs there, his heart racing; he meets her, she extends her hand to him, receives him with trouble: he sees that he is loved. As she walked through the park alleys with her, Jenny's dress embarrassed herself in a thorny acacia bush. Later on, Mortimer was

happy, but Jenny was unfaithful. I maintain that Jenny never loved him; he cites as proof of his love the way she received him when she returned from the continent, but he could never give me the slightest detail. Only he flinches visibly as soon as he sees an acacia bush; it is really the only distinct memory he has kept of the happiest moment of his life. Under the guise of a psychological and sociological analysis of love, he expresses his unfortunate passion for Matilde Viscontini Dembowski. It is in this book that he invents and describes the famous phenomenon of crystallization. An essay on the feeling of love in which he tries to categorize and analyze the different types of emotions. The most famous idea is that of "crystallization": the lover sees the loved one under the prism of perfection and makes an idealized image of him.

Italian Chronicles Stendhal 2017-05-02 Nineteenth-century French writer Marie-Henri Beyle, better known by his pen name Stendhal, is one of the earliest leading practitioners of realism, his stories filled with sharp analyses of his characters' psychology. This translation of Stendhal's *Chroniques italiennes* is a collection of nine tales written between 1829 and 1840, many of which were published only after his death. Together these collected tales reveal a great novelist working with highly dramatic subject matter to forge a vision of life lived at its most intense. The setting for these tales is a romanticized Italy, a place Stendhal viewed as unpolluted by bourgeois inhibitions and conformism. From the hothouse atmosphere of aristocratic convents to the horrors of the Cenci family, the tales in *Italian Chronicles* all feature passionate, transgressive characters engaged in "la chasse au bonheur"—the quest for happiness. Most of the tragic, violent tales are based on historical events, with Stendhal using history to validate his characters' extreme behaviors as they battle literal and figurative oppression and try to break through to freedom. Complete with revenge, bloody daggers, poisonings, and thick-walled nunneries, this new translation of *Italian Chronicles* includes four never-before-translated stories and a fascinating introduction detailing the origins of the book. It is sure to gratify established Stendhal fans as well as readers new to the writer.

The Red and the Black Stendhal 2003 A major new translation of Stendhal's masterpiece by acclaimed, bestselling translator Burton Raffel, "The Red and the Black" tells of Julien Sorel, an ambitious young man from the provinces fueled by dreams of Napoleonic heroism.

The Red and the Black Stendhal 2003-06-24 A Major New Translation *The Red and the Black*, Stendhal's masterpiece, is the story of Julien Sorel, a young dreamer from the provinces, fueled by Napoleonic ideals, whose desire to make his fortune sets in motion events both mesmerizing and tragic. Sorel's quest to find himself, and the doomed love he encounters along the way, are delineated with an unprecedented psychological depth and realism. At the same time, Stendhal weaves together the social life and fraught political intrigues of post-Napoleonic France, bringing that world to unforgettable, full-color life. His portrait of Julien and early-nineteenth-century France remains an unsurpassed creation, one that brilliantly anticipates modern literature. Neglected during its time, *The Red and the Black* has assumed its rightful place as one of the world's great books, and Burton Raffel's extraordinary new translation, coupled with an enlightening Introduction by Diane Johnson, helps it shine more brightly than ever before.

Stendhal Roger Pearson 2014-09-11 Both critic and writer, Stendhal has now become established as one of realism's founding fathers. Dr Pearson's book maps out, for the first time, the critical reception of Stendhal's two most widely read novels, *The Red and the Black* and *The Charterhouse of Parma* since their publication in 1830 and 1839 respectively. In part one he provides generous samples of the most important nineteenth-century responses to the novels, almost all of them translated into English for the first time. Part two presents a full range of the most authoritative and influential readings since 1945, which illustrate a wide variety of critical approaches.

Green Huntsman Stendhal 1950

Memoirs of an Egotist Stendhal 1975

Red and Black Stendhal 2022-09-27 A masterpiece of nineteenth-century literature in a fresh translation that fully captures the language, psychology, and social reach of Stendhal's original. Fueled with a combustible mix of ambition, naivete, and Napoleonic ideals, Julien Sorel sets his sights on the heights of French society. But for the son of a provincial carpenter in post-Napoleonic France, the prospects for advancement are vanishingly narrow, the chances for glory rarer yet. After securing a toehold as a tutor to a wealthy family, Julien proceeds through a series of misadventures, illicit affairs, and lucky reversals to breach the ranks of French aristocracy—only to be undone by treasonous schemes, cynical romantic calculations, and an unexpectedly genuine and ultimately disastrous passion. Shocking at the time of its original publication, startling in its relevance today, Stendhal's masterpiece is a scorching social satire, a remarkably detailed portrait of a fraught moment in history and, as perhaps the first psychological novel, a brilliant precursor to modern literature at once comical and tragic, cerebral and passionate. This new translation faithfully reproduces the nimble wit, emotional depth, and social acuity of Stendhal's text. Distinguished translator Raymond N. MacKenzie includes an extensive introduction to Stendhal's world and time, as well as copious annotations that explain allusions and terms for the modern reader.

A Mirror in the Roadway Morris Dickstein 2021-08-10 In a famous passage in *The Red and the Black*, the French writer Stendhal described the novel as a mirror being carried along a roadway. In the twentieth century this was derided as a naïve notion of realism. Instead, modern writers experimented with creative forms of invention and dislocation. Deconstructive theorists went even further, questioning whether literature had any real reference to a world outside its own language, while traditional historians challenged whether novels gave a trustworthy representation of history and society. In this book, Morris Dickstein reinterprets Stendhal's metaphor and tracks the different worlds of a wide array of twentieth-century writers, from realists like Theodore Dreiser, Sinclair Lewis, Edith Wharton, and Willa Cather, through modernists like Franz Kafka and Samuel Beckett, to wildly inventive postwar writers like Saul Bellow, Günter Grass, Mary McCarthy, George Orwell, Philip Roth, and Gabriel García Márquez. Dickstein argues that fiction will always yield rich insight into its subject, and that literature can also be a form of historical understanding. Writers refract the world through their forms and sensibilities. He shows how the work of these writers recaptures--yet also transforms--the life around them, the world inside them, and the universe of language and feeling they share with their readers. Through lively and incisive essays directed to general readers as well as students of literature, Dickstein redefines the literary landscape--a landscape in which reading has for decades been devalued by society and distorted by theory. Having begun with a reconsideration of realism, the book concludes with several essays probing the strengths and limitations of a historical approach to literature and criticism.

The Red and the Black Stendhal, 2009-03-26 In this vigorous and fast-moving novel of post-Napoleonic

France, Julien Sorel's plans to reach the higher echelons of society through the priesthood are deflected by his realization that the attainment of happiness is of greater consequence than the pursuit of ambition. Subtitled 'A Chronicle of 1830', Stendhal's depiction of a nation of smug hypocrites scandalized contemporary readers, who recognized themselves or their peers and felt uncomfortable with the energy, imagination, and sincerity of a hero so patently inspired by their lately deposed Emperor. Julien's restless energy is fully captured in this specially commissioned translation of one of the world's great novels.

The Red and the Black Stendhal 2002-09-24 Charts the rise and fall of an ambitious young social climber in a cruel, monarchical society Handsome, ambitious Julien Sorel is determined to rise above his humble provincial origins. Soon realizing that success can only be achieved by adopting the subtle code of hypocrisy by which society operates, he begins to achieve advancement through deceit and self-interest. His triumphant career takes him into the heart of glamorous Parisian society, along the way conquering the gentle, married Madame de Rênal, and the haughty Mathilde. But then Julien commits an unexpected, devastating crime—and brings about his own downfall. The Red and the Black is a lively, satirical portrayal of French society after Waterloo, riddled with corruption, greed and ennui, and Julien—the cold exploiter whose Machiavellian campaign is undercut by his own emotions—is one of the most intriguing characters in European literature. Roger Gard's fine translation remains faithful to the natural, conversational tone of the original, while his introduction elucidates the complexities of Julien's character. This edition also contains a chronology, further reading and an appendix on Stendhal's use of epigraphs. Realism and Revolution Sandy Petrey 2018-10-18 Sandy Petrey here looks at the emergence of nineteenth-century French realism in the light of the concept of speech acts as defined by J. L. Austin and as exemplified by the history of the French Revolution. Through analysis of the techniques of representation in works by Balzac, Stendhal, and Zola, Petrey suggests that the expression of a truth depends on the same collective forces necessary to change a regime. According to Petrey, political legitimacy in the Revolution, the Empire, and the Restoration was established by means of a series of demonstrations that what words say cannot be interpreted without reference to the community to which they speak. Petrey first discusses the creation of France's National Assembly in 1789 as a foundational example of how speech acts can bring about historical transformation. He then challenges the most powerful twentieth-century assault on realist aesthetics, Roland Barthes's *S/Z*, and also considers the views of such contemporary critics as Jacques Derrida, Barbara Johnson, and Stanley Fish. During the Revolution, Petrey says, statements of truth were not descriptions of what was, but rather exhortations to produce what was not. Nineteenth-century French fiction represents in literary form a similar collectively authorized linguistic performance; the "real" in realism comes from representing facts not as they are in themselves but as they are produced and rejected in society. In the course of illuminating readings of three central realist works—Balzac's *Pere Goriot*, Stendhal's *The Red and the Black*, and Zola's *Germinal*—Petrey takes the position that the dilemmas of representation, far from being one of realism's blind spots, figure among its major narrative subjects.

The Red and the Black Stendhal 2014-05-01 The nineteenth century was a time of turmoil and social

change, during which the immutable caste system that had defined European society for thousands of years finally began to shift. This transitional period is brought to life in the exhilaratingly ambitious historical novel, *The Red and the Black*, which follows the life of Julien Sorel, born of a working-class family, who attempts to improve his station in life. Can Sorel overcome the influence of the powers that be through his sheer force of will?

Lucky Per Henrik Pontoppidan 2010 *Lucky Per*, written at the turn from the nineteenth to the twentieth century (1898-1904), has never before been translated into English, although its author, Henrik Pontoppidan, won the Nobel Prize in literature in 1917 together with his Danish countryman Karl Adolph Gjellerup. Indeed, Pontoppidan's novel was singled out by writers like Thomas Mann and Georg Lucács as seminal in modern world literature. *Lucky Per* sweeps through every social, religious, literary, and philosophical circle of the 1890s, through the politics of city power brokers, the engineering of new technology, the alien correctives of provincial complacency by the ecumenical culture and complex of Copenhagen's Jewish set, the victims of the Russian pogroms, and the cosmopolitan chastisement imported from the European capitals by the self-exiled Georg Brandes, Danish critic of huge influence and presence, and a character in the novel. The contrast between the Danish capital and provinces is matched by that between Copenhagen and Berlin. The Austrian Alps are host to a clash between a form of progressive post-Darwinian naturalism and conservative Christianity, whereas Italy mediates between comparative morality and the classical and contemporary worlds. Pontoppidan dramatically incorporates the perspectives of the makers of early modernism, such as Brandes, Kierkegaard, Nietzsche, Ibsen, biblical prophets, and Bohemian artists. Trolls from Scandinavian fairy tales haunt the novel's realism without ever letting them bully or appropriate either the life of the fiction or the life of the protagonist from his childhood as the son of a strict Lutheran pastor through the passionate sorrows and joys that led him to his full maturity. It is a rich and riveting work of moral, metaphysical, psychological, philosophical, and literary complexity and depth, carried by a large, varied, vivid, and vibrant cast of characters of all classes and persuasions.

The Red and the Black Stendhal 2019-02-07 *The Red and the Black* is a historical psychological novel by Stendhal, published in French in 1830 as *Le Rouge et le noir*. The novel, set in France during the Second Restoration (1815-30), is a powerful character study of Julien Sorel, an ambitious young man who uses seduction as a tool for advancement. M. de Rênal, the mayor of the provincial town Verrières, hires Julien Sorel to be his children's tutor. Julien is only a carpenter's son, but dreams of following in the footsteps of his hero, Napoleon. However, in Julien's time, men gain power in the Church and not in the army. Even though he is training to become a priest, Julien decides to seduce the mayor's wife, Mme. de Rênal, because he thinks that it is his duty. They become lovers, but M. Valenod, the mayor's political adversary, finds out about the affair and begins to spread rumors. M. de Rênal is profoundly embarrassed, but his wife convinces him that the rumors are false. M. Chélan, the town priest and Julien's mentor, sends him to the Besançon seminary to avoid any further scandal. The director of the seminary, M. Pirard, likes Julien and encourages him to become a great priest. Julien does very well at the seminary, but only because he wants to make a fortune and succeed in French society. The other priests at the seminary are not aware of Julien's hypocrisy, but are jealous of his intelligence. M. Pirard is disgusted with the political involvement of the Church and resigns. His aristocratic benefactor, the Marquis de la Mole, wants M. Pirard to be his personal secretary in Paris, but M. Pirard tells him to hire Julien instead. Julien is both enthralled and repulsed by Parisian society at the same time. He tries to fit in among the nobles but they treat him as a social inferior. However, the Marquis's daughter, Mathilde, falls in love with Julien and they become lovers. When Mathilde gets pregnant and tells the Marquis about her affair, he is furious, but soon ennobles Julien so Mathilde can marry him. Julien finally has the aristocratic title he always wanted. But Mme. de Rênal sends the Marquis a letter denouncing Julien as a womanizer only concerned with making his fortune. The Marquis then refuses to let Mathilde marry Julien, who furiously returns to Verrières and shoots Mme. de Rênal. She survives, but Julien is sentenced to death anyway. Mme. de Rênal forgives Julien and dies of love three days after his execution (Sparknotes)

Stendhal: The Red and the Black Stirling Haig 1989-06-22 Stendhal's great novel *The Red and the Black*, published in 1830, is seen as one of the most distinguished monuments of literary realism. In this introductory study, Stirling Haig shows how this realism derives from the incorporation of both history and legal reportage into the novel, and how it combines autobiography with mimesis. Professor Haig locates the novel in the context of Stendhal's own experiences as a Commissariat officer in the Napoleonic army, journalist, opera-lover, salon dandy and traveller in Italy and Restoration France, and highlights the constant inter-penetration of personal, documentary, and fictional elements in Stendhal's writings.

The Abbess of Castro Stendhal 2021-12-03 'The Abbess of Castro' is a novella by Stendhal which recounts the untimely tragic romance between the daughter of the wealthiest man in Lazio and a penniless gangster. It may be a tale of star-crossed lovers set in Italy, but this novella is so much more than an alternative *Romeo and Juliet*. Beneath the surface lies an eye-opening tale of political machinations that Machiavelli would be proud of, violent family feuds and swashbuckling adventures. Claimed to be translated from 16th Century manuscripts, 'The Abbess of Castro' packs an extra punch with its extremely unsympathetic view on warfare and an acute critique on ardent individuals undone by passion. Stendhal is widely regarded to be an eminent example of Romantic Realism throughout his work and directly influenced the world-famous Russian author Leo Tolstoy in his depictions of war, especially in Tolstoy's works 'Sevastopol Sketchers', 'The Invaders', 'The Cossacks' and 'Youth and Childhood'. Stendhal (1783-1842), the pseudonym of Marie-Henry Beyle, was a French writer. A pioneer of literary realism and master of the psychological portrayals of his characters, he is best known for his novels 'The

Red and the Black' (1830) and 'The Charterhouse of Parma' (1839).

Stendhal Francesco Manzini 2019-10-15 This is a book about the life and work of a singular writer, an author well-known for his biographies and travel writing but most famous for his novels *The Red and the Black* and *The Charterhouse of Parma*. As a child, Stendhal witnessed the unfolding of the French Revolution; as a young man, he served Napoleon first as a soldier and then as an administrator; and as a middle-aged man, he made it his task not to pursue his career, but instead to take as much paid leave as possible in order to be free and to be happy—and to write. Stendhal's works often take the form of conversations with his readers—the “Happy Few” as he called them—about the things that matter most. He once claimed that he spent the majority of his life “carefully considering five or six main ideas.” This book makes clear what those main ideas were, why they mattered to Stendhal, and why they continue to matter to all of us.

Scarlet and Black Stendhal 1953 The son of a carpenter, Julian Sorel is inspired by the writings of Napoleon to conquer the heights of society.
